R.K.Babington
Mayor.

TO THE TOWN COUNCIL OF ELKTON, VIRGINIA:
(Presented at the regular meeting of the Council on Friday, June 4, 1954)

The undersigned, resident taxpayers in the Town of Elkton, Va., respectfully petition the Council to so construct the alleyway recently excavated between Jackson Avenue and North Avenue, in the Town of Elkton, Va., so that the following results may be obtained:

1. Build and maintain a retaining wall, or construct the alleyway in any other manner feasible so that soil erosion will be prevented along the rear boundaries of the properties owned by H. F. Rogers, John Flick and Lee Flick. The present alleyway is of such depth and so closely adjacent to all three properties that it is apparent heavy rainfall and the freezing and thawing during wintertime will cause the land of all three property owners to crumble and wash away. Such erosion would of necessity make the land less valuable and would also may it impossible for the landowners to maintain their fences along the boundary of the alleyway without constantly reconstructing the same.

2. Construct some type of entrance to each of the three properties herein mentioned in order that the respective owners may have a means of ingress and egress to the alleyway from their boundaries along the alleyway. Each of the three landowners had means of entering into their properties from the alleyway prior to the excavation of the alleyway, and the excavating of this alleyway obliterated all of these entrances.

Respectfully,

H. F. ROGERS)
