Mr. Alan Thompson, speaking on behalf of the citizen's on East Spotswood Avenue, was back regarding the flooding situation on East Spotswood Avenue. Mr. Thompson said he felt it sould be one of the major priorities of the council to correct this situation and ask if council considered this when preparing the Revenue Sharing Budget or were they still considering it.

President Pro Tempore Flory stated that council has considered the problem but that the majority of items in the proposed budget had already been obligated. It was indicated that possibly some ditching could be done to help this flooding problem. These citizens were assured that they have not been forgotten. Council could make no promises that the problem could be completely solved but they will continue working toward this effort.

Mrs. Lough questioned the $3,511.00 for Communications Equipment in the Police Department and ask to be given a little more information on this item.

President Pro Tempore Flory said this was to be used to pay for the teletype and telecopier which have already been installed in the Police Department. Councilwoman Life and Councilman Dean said they did not know enough about it but would find out and let Mrs. Lough know.

As there was no further questions, the Public Hearing was closed and council went into special session. The Special Meeting was called to order by the President Pro Tempore, H. D. Flory at 7:40 P.M.
